Orange county, CA 92677
(949)-981-8497

Aspiring Full Stack Software Developer with a solid foundation in modern web technologies and practical experience building and deploying dynamic full-stack applications. Successfully completed the Full Stack Development program at UCI, acquiring expertise in JavaScript, React, Node.js, MongoDB, and responsive design. Dedicated to leveraging strong problem-solving abilities and a passion for coding to deliver impactful software solutions and excel in collaborative team environments.

Skills

- **Programming Languages:** JavaScript, Python, HTML5, CSS
 - **Frameworks & Libraries:** React.js, Node.js, Express.js, Bootstrap, Tailwind CSS, GraphQL
 - **Databases:** MongoDB, MySQL
 - **Tools & Platforms:** Git/GitHub, Visual Studio Code, Postman, Figma.
 - **Other Skills:** Agile Development, RESTful APIs, Problem Solving, Communication, Team work.
-

Experience

Calo Kitchen & Tequila / Server

June 2024 - PRESENT, Laguna Niguel, CA

- Consistently maintained a high level of customer satisfaction by providing friendly, efficient service.
- Anticipated customer needs and quickly responded to requests to ensure an enjoyable dining experience.

The Ranch / Valet

June 2023- February 2024, Laguna Beach, CA

- Multitasked efficiently to quickly and accurately park and retrieve vehicles for customers.

Saddleback Memorial Medical Center Emergency Department / ER Volunteer

April 2023 - April 2024, Laguna Hills, CA

- Responding to emergency situations and accidents, providing first aid and contacting emergency services when necessary.

Behavioral Frontiers / Behavior Therapist

Dec 2021 - Dec 2022, Irvine, CA

- Developed and implemented evidence-based interventions that improved clients' overall mental health and well-being.
- Educated clients and their families about mental health and behavioral issues, providing resources and guidance to them.

Education

University Of California Irvine / Full-Stack Development Certificate

June 2024 - Dec 2024, Irvine, CA

- Acquired expertise in front-end and back-end technologies, including JavaScript, CSS, React, Node.js, Express.js, MongoDB, and MySQL.
- Developed and deployed several full-stack applications showcasing skills in responsive design, API integration, and database management.
- Collaborated in teams to build dynamic and user-centric applications, utilizing Agile methodologies to ensure timely and effective project delivery.
- Created RESTful APIs to facilitate seamless communication between client and server-side systems.
- Gained proficiency in version control systems like Git, enabling efficient collaboration and code management.
- Developed and deployed several full-stack applications showcasing skills in responsive design, API integration, and database management.

University Of California Riverside / Bachelors of Science In Biology

Jan 2019 - June 2021, Riverside, CA

- Completed comprehensive coursework in molecular biology, Chemistry, genetics, and biochemistry.
- Conducted hands-on laboratory research, including experiments in molecular biology and genetics, while developing advanced skills in data analysis, scientific reporting, and critical problem-solving.
- Mastered technical skills such as PCR, gel electrophoresis, spectrophotometry, and cell culture techniques.
- Produced detailed scientific reports and presentations, honing technical writing and communication abilities.
- Gained a foundational understanding of statistical methods and their applications in biological research.
